

This law was enacted to protect our valuable time in this short life we have here from unnecessary interruptions have you ever heard the expression " that's 5 minutes of my life I'm never going to get back" We as consumers who make up the markets have the right not to be bombarded if we choose to turn off our television and I feel we also have the right to do so without turning off our telephones.

Leave this law alone.. it's crazy enough living in the hassle and bustle of the the great blue state of NJ let the people bother those with more time plenty of red states out there...
